THE UNIVERSITY OF HONG KONG/ROYAL FREE HOSPITAL COAGULATION WORKSHOP 2010

13th October - 15th October 2010

University Pathology Building, Department of Pathology,
University of Hong Kong, Queen Mary Hospital, Hong Kong.

HKU/RFH COAGULATION WORKSHOP 2010 is the ninth biennial Workshop organized with the objective of enhancing the quality of clinical & laboratory coagulation practice in the region & providing a platform for communication amongst professionals in the field. We are very honoured this year to have **Dr Alexander GATT**, Consultant Haematologist & Honorary Senior Lecturer, Katharine Dormandy Haemophilia Centre, Royal Free Hospital, London, addressing the audience.

To cater for the complexity of current clinical practice, this Workshop will focus on **Consultative Haemostasis**, in addition to the essential content of laboratory coagulation. There will be one morning session devoted entirely to the various types of **Acquired Inhibitors of Coagulation**, which are of great diagnostic importance. The content of the **Seminar on Quality Assurance** has also been thoroughly revised. The practical sessions will be dedicated to illustrating pertinent issues on quality assurance & diagnostic applications of automated coagulometers.

Participants from laboratories in the region, to whom a sound understanding of laboratory coagulation & quality assurance would be beneficial, are invited to apply for the course. Clinical colleagues managing patients with haemostatic disorders are also welcome. Participants of the practical session will be limited to a maximum of 30 to optimize supervision & discussion.

THE UNIVERSITY OF HONG KONG/ROYAL FREE HOSPITAL COAGULATION WORKSHOP 2010

13th October - 15th October 2010

University Pathology Building, Department of Pathology,
University of Hong Kong, Queen Mary Hospital, Hong Kong.

I would like to apply for:

	Course Fees
❑ Lectures	HK$200
❑ Lectures and Practicals	HK$900

Name: Mr./Miss/Mrs./Dr._____ Hospital/Rank: _____
